WORK EXPERIENCE

Software Engineer

SELISE Digital Platforms [🔗](#)

04/2020 - 08/2022

Dhanmodi, Dhaka, Bangladesh

Achievements/Tasks

- Working as a **full stack developer** on a **Logistics Insights Management** project which supports clients concept level analysis and logistics system design.
- Implemented an elevator management system that is now faster than the previous service. It also optimized the cost of the project.
- Stack:** Angular framework for support our frontend part ,C# .NET for backend with communicating via different **microservices**. (**Angular, C# .NET, mongodb**)
- Involved as a **problem setter & judge for the fresher recruitment**. [Contest Link](#)

Full Stack Web Developer (Internship)

Ginilab Bangladesh [🔗](#)

02/2019 - 08/2019

Kushtia, Khulna, Bangladesh

Achievements/Tasks

- This is an online restaurant management system where users can easily order their food from the restaurant without hassle. [🔗](#)
- Implemented the user management, food ordering system and database design etc.
- Stack:** PHP with Codeigniter framework and mysql database.

PERSONAL PROJECTS

Department Digitalization System

- This System is fully focused on Online Department Management which helps us to computerize the teacher, student, staff details, student management, department maintenance, class routine and student attendance etc. Where we can easily access and maintain our department system.
- Stack:** HTML,CSS, Bootstarp, JS for frontend and PHP with Codeigniter framework and mysql database for backend.

Automated Hand Sanitizer

- Worked on a project based on IOT. It mainly used for sanitizing our hands automatically.
